prologue

In the early 30's a southern view of the campus showed the beginnings of the expansion program.

Fifty years ago Cal Poly was nothing more than an idea. It had no past. At times, its planners weren't all too sure of its future. Now, fifty years later, it's easy to disregard the struggles that shaped history. It's too easy, perhaps, to think only of the present and plan for the future. But this yearbook deals with the past—and, primarily, with a school year that always will be remembered by those who made it.

Yet, EL RODEO, 1951, seeks to extend that past even further—to remind those present that today was built on many yesterdays—also to refresh the memories of those still with us who remember at first hand our younger eras. This, then, is a memory book. We

have made it an album, with the format borrowed from another fashion. The layout, however, is from contemporaries. Thus betokening a story from the past—a use in the present and future.

In this book, with its parade of past to present from page 1 to page 224, page 224 is by no means the end. It is only a point in the perennial panorama of Poly Progress. Paradoxically, EL RODEO, 1951, a memory book, points to the volumes and volumes that year after year will be added to page 224. Faith in this institution—the swelling acceptance of its principles and philosophies—will add those volumes.

From Presidential Hill in 1931. The president's house had been built for three years.

— dedication —

In May of 1903 the first of Cal Poly's publications was written, printed and distributed. It was a small catalog, and listed in it were three faculty members, a course of study which took most of one page, and an architect's drawing of two buildings then under construction. There was little else to write about even though the school had been an institution since 1901.

That small catalog was the beginning of recorded history at Cal Poly, history which, of course, does not record an uneventful march toward bliss. But as the pages grew, they built a testimonial to the lives of people who for a time had a job to do. To symbolize their achievements, these same people have a golden monument: Cal Poly, 1951.

Lest they be forgotten in this our Golden Anniversary year, EL RODEO, 1951, pays them respectful tribute, and adds its pages to the now-huge library of Cal Poly's record.

JULIAN A. MCPHEE
president, california state polytechnic college

A half-century ago Cal Poly began as a small school dedicated to teaching the "hand as well as the head." That ideal has withstood the test of time. The school is recognized today as a pioneer and leader in the field of occupational training on a college level.

The little academy with a handful of graduates has grown to a four-year, fully accredited state college. The number of students graduating in 1951 exceeds the total number of students enrolled during any school year in the first 35 years.

Cal Poly is successful because it is providing a type of education which is wanted and needed. We've learned that the world is anxious for young men who have not only college background but actual ability to put that background into immediate useful action.

Whatever success this college has achieved in making such educational opportunity available to the youth of this State has come as the result of the work of many people—not the least of these are our hundreds of former students whose success is the measure of the college's success.

Julian A. McPhee,
President

HAROLD O. WILSON
executive dean

DONALD NELSON
business manager

Reorganized this year under a new administrative set-up, the college deans have changed both in personnel and in areas of responsibility. Instructional divisions remain the same with the exception of a new name, Liberal Arts replacing the former Science and Humanities.

A new position, Executive Dean, was created and a new name, Dean of Students, replaced the Dean of Student Welfare. The Dean of Students, the Executive Dean, and the Dean of Engineering are new men on the job although only one, Everett M. Chandler, is new to Poly students.

C. O. McCORKLE
dean of instruction

EVERETT M. CHANDLER
dean of students

VARD M. SHEPARD
dean of agriculture

RALPH B. PRIESTLEY
dean of engineering

HUBERT H. SEMANS
dean of liberal arts

aeronautical engineering

Marvin Haagberg, Richard Hall, and M. C. Martinsen focus their attention on one of the nine cylinder radial engines in the aero engine shop.

LESTER GUSTAFSON
department head, aeronautical engineering

Robert Needham and Alden Turner take a brief turn at the compression-tension testing machine in the aero strength lab.

William Kirkpatrick, Ray Parsons, Erle Campbell, and John Dunn have a confab as Campbell rolls into the farm shop in one of the jeeps.

Ralph Hoover, Clive Remund, and Henry Clay discuss the merits of the telescopic alidade in farm surveying.

Ralph Bille, Robert Wallace and Leo Sankoff catch some conversation by the tool box.

agricultural engineering

JAMES F. MERSON
department head, agricultural engineering

agricultural journalism

KENNETH KITCH
department head, agricultural journalism

Bob Kennedy and Ken Kitch, super public relations men, compare a few new layout ideas.

William Bush and John Healey examine some salon portraiture. Critic Bush is not satisfied with its reproduction possibilities.

NORMAN C. SHARPE
department head, air conditioning and refrigeration engineering

*Carl Moore, I. G. VanNest and Orvie Highum
ponder a refrigeration problem.*

*Charles Knokey, Ted Graves, and George
Green fit a heat exchanger in one of the large
AC lab units.*

air conditioning and refrigeration

Lyle Hoyt and Spelman Collins give a thesis the once over.

LYMAN BENNION
department head, animal husbandry

Rollin Lander, chief swine husbandryman, takes a moment off from the hogs.

Richard Johnson prepares to sort out a few ewes from the upper sheep corral.

animal husbandry

Don Bower catches up on the day's correspondence after a tussle with the steers.

John Algeo is caught in a moment of serious conversation.

George McNeely is not amused.

Dr. Roscoe Balch and Dr. Dean Lindley, college veterinarians, take a short refresher on the bone structure of the horse.

architectural engineering

Hans Mager and George Brown develop a new problem to throw to the design classes.

George Hasslein and Bill Ricker take a critical look at a neat model.

RALPH B. PRIESTLEY
department head, architectural engineering

DR. GLENN A. NOBLE
department head, biological sciences

David Thomson, Dr. Eugene Bovee, and Dr. Robert Hoover take notes on the development of a new culture.

biological science

Dr. R. C. Hatfield and Dr. Frederick Essig try the same examination on two new microscopes of different types.

Dr. Henry Tranmal, Ken Boyle and Russell Nelson line up for a formal shot outside of the Dairy department office. Boyle has his ever-present cigar.

Ken Boyle and George Drumm catch up on the latest between batches in the Dairy department pasteurizer.

GEORGE M. DRUMM
department head, dairy husbandry and manufacturing

dairy husbandry and manufacturing

education and psychology

Morris Garter, H. H. Burlingham, and Dale Andrews, teacher trainers, look at some of Garter's audio-visual scoop.

Norman Gould, Dr. Arthur Butzbach, and Bob Maurer are all interested in Maurer's "report for active duty" papers.

HUBERT H. SEMANS
department head, education and psychology

electrical engineering

George Abel and Kermit Eckert test a motor armature on a bench growler.

E. C. GLOVER
department head, electrical engineering

E. C. Glover, Fred Steuck, and Warren Anderson take a look at the wiring diagram of the welding control unit on the bench to their left.

CLARENCE RADIUS
department head, electronics and radio engineering

Clarence Radius, Ellis Roney, Don Bowen, Fred Bowden, Kenneth Watson, Gerald Peterson, and Harry Wolf examine a standing wave detector. The detector, complete with diagram was a senior project.

electronics and radio engineering

John Riebel, Agnes Howe, and Morris Garter find the end of the day a somewhat trying time.

John Mackey, Pearl Bayless, Louis Shepherd, and Dr. Paul Pendleton line up some new work books. The joke came from the audience.

DAVID M. GRANT
chairman, department of English

english

William Leary, James Smith and Ena Marston, prepare to shoot a few questions at Charles Lang.

field, fruit, and truck crops

PAUL DOUGHERTY
department head, field, fruit, and truck crops

Reynold Lonborg and John Talbott compare two seed specimen samples.

Ralph Vorhies and Stanton Gray inspect a graft cutting.

Paul Dougherty and Gordon VanEpps check the quality of sample Lima beans.

mathematics

DR. MILO WHITSON
department head, mathematics

John Alderson, Claude Pursel, A. L. Colwell, and Clyde Fisher unknot
a tough one before they give it to the boys.

Leo High, Charles Elston, and John Woodworth plan strategy for
coming finals.

C. E. Hanshew, Ralph Weston, Milo Whitson, and Dave Cook get
the latest "learn-by-doing" from the latest text.

mechanical engineering—

Keith Mikesell, Robert Reece, and Paul Weller catch up on the current issue of "Home Plumber." Reece's cigar, well-chewed, rests temporarily in the ash tray.

Gerald Ellis, Russell Freemyers, and Robert Johnston develop another drawing for the freshmen engineering students.

THOMAS ZILKA
department head, mechanical engineering

Clifford Anderson, Hugh Haroldson, and J. O. Richardson find some new lecture material in one of the library's technical periodicals.

Right—Bob Conkling, Enrico Bongio, and Richard Wiley, welding instructors, make a tough one tougher for the welding design classes.

Far Right—Leo Rogers, F. F. Whiting, Ellard Betz, and C. C. Richards machine a precision fixture on the new vertical milling machine.

ornamental horticulture—

WILBUR B. HOWES
department head, ornamental horticulture

*Wilbur Howes and Howard Brown pause after
a look-around in the ornamental hort gardens.*

*H. P. "Davie" Davidson glares at the sour
note—psst! It's coming from the first trumpets.*

maintenance engineering

Dr. Logan Carter, Dr. Arnold Dean, and Dr. Lawrence Alban concentrate three brains on a laboratory analysis.

THOMAS HARDGROVE
department head, maintenance engineering

Wyatt Masters and Mel Simonette plan their coming lectures from the dope on new developments in the building trades.

soil science

DR. LOGAN S. CARTER
department head, soil science

social science

A. N. CRUIKSHANKS
department head, social sciences

A. N. Cruikshanks and Thomas Nolan compare
viewpoints on a new library picture book.

James McNerny, Ralph Dilts, and Eugene Rittenhouse, of history, political science and econ fame, respectively, get "shot" before running to a meeting.

Gene Brendlin, Edward Rogers, and Gus Beck examine "Western Horseman."

J. Phillip Bromley pores over reference material before delivering one of his amazingly organized lectures.

Gene Smith, Howard O'Daniels, and Roy Anderson find the library lounge a good place for a chat.

Shirley Farrar, Major J. C. Deuel, and A. L. Colwell of the Dean of Students office wait for the next patient.

administrative services

Leo Philbin, registrar, has a tough problem making out a workable examination schedule.

Ladies of the Recorder's office, Pat McCormick, Dorothy Peipenbrink, Ruth Meily, Betty DeWees, Sammie Dodds, Edna Bromley, Lois Marvel, and head recorder Mrs. Mabel Camp make a graceful picture on the Administration building lawn.

Kathryn Rowland, admissions secretary, smiles in the midst of an evaluations program.

The Guidance Center staff, O. B. Nereson, head, Lenore Stratton, secretary, and Senia McCann, psychometrist, add to their already bulging files.

The volunteer fire crew and the security force are—FIRST ROW: W. Slayton, G. Bergst, D. George, J. Rice, J. Raymond, J. West, A. Moote, R. Daly. SECOND ROW: H. Mitchell, J. Gates, W. Guenther, Security Officer, E. A. Steiner, F. Donn, E. Andrez, and B. Fisher.

Information

Out front is Poly's number one public relations contact. Olga Martinson is an information bureau, a switchboard operator, and a friend in time of need.

Over in the President's office are: Leona Boerman (secretary to the president), Norma Roberts, and Irene Horvath.

The General Office staff includes a number of Poly's only coeds. SEATED: Eddie Doherty, Eva Furtado, June Powell, Donna Steele. STANDING: Peggy Grossini, Jeanne Clow, Beth Lyon, Violet Fingal, Mary Johnson, Marlene Ferrini, Dora Heydenfeldt, Elizabeth Roy, and Owen Servatius, in charge.

Across the street the library holds peaceful sway with its staff, FIRST ROW: Helen Blair, Arthur Stobbe, Marcus Gold, George Hunter, Shirley Pedranti. SECOND ROW: Mary Lou Barker, Gloria Silacci, Pat Riley, Lolita Giddens, Margaret Lane, Esther Wright (assistant librarian), Jane Faires, and Lee Dye.

FRANCIS S. ALLEN
head librarian

Accounts, money, and finances keep this staff busy: Eva Mecebo, Cathrine Nolan, Jeanette Caile, Nan Haynes, Mary Lee Green, Doris Dilworth, Ena Hoxie, Dora Heydenfeldt, Lena Gianolini, Teresa Mills, and Steve Hickenbottom.

To keep the Poly fleet rolling 30,000 miles a month requires this crew: M. Meacham, F. Franklin, D. Sims, J. S. Carrington (head), C. Bell, C. Murphy, E. Seely, K. Hall, L. Heyd, C. Burton, I. Butterfield, E. Herom, W. Reed, J. Elliot, J. Moir, J. Murphy.

With Poly in its expansion stage, Ralph Miller, superintendent of buildings and grounds, keeps the telephone well-warmed and the telephone directory well-thumbed.

Chief engineer John Perozzi, Robert Smith, Mike Terrill, and Harold Nash, all of power house and utilities fame, are a cheerful lot of characters.

The post office crew keeps busy answering the question, "Is the mail out yet?" They are: Don Johnson, George Rugge, Dale Strunk, Phil McMillan (postmaster), Ray Ruegg, and Harold Staff.

Night or day the Health Center staff is on call. They are: Otto Ambiel, Harlan Bishop, Kathryn Weskamp, Dr. E. S. Maxson, Mrs. Imogene Gow, and Bob Olds.

El Corral gathers its staff members from branches far and near. The ladies are: Mrs. Edna Young, Diane Engle, Adele Meckfessel, Margaret Murphy, Mildred Aness, Nancy Schlegel, Doretta Tong, Minnie Sleeter, Nora Kastening, Sunny Hughes, Doris St. Clair, and boss Harry Wineroth.

juniors

The Juniors, the proud pappas of the Frosh-Soph Brawl, met a large problem in officiating the push ball event. The day was growing late, the contestants weary, and the push ball heavy. The sponsoring Juniors, however, pulled off a good show.

sac

Under the able administration of Jim Dowe, Bill Lidderdale, and Doug Thorne, student body president, vice-president, and secretary respectively, the student body functioned as a well oiled machine.

A vote of thanks is also due to the Student Affairs Committee for their capable legislation, and to Harry Wineroth and Helen Osborne for their very efficient handling of the business end of the student body activities.

el rodeo

Work, sweat and blood was all that Stew Peters promised the El Rodeo staff in September and how prophetic Stew's words proved to be. Now after nine months of arduous toil, the staff presents with pride, its portrayal of Cal Poly, its men, their work and play.

Editor Peters' capable staff was manned by a hand picked group of hard working editors and photographers. Frank White was the man behind the business desk, George Hayslip ram-rodged the photogs, Lloyd Fellows put the Cal Poly Clubs on paper, Chuck Dofflemyer catalogued the years' activities, Don Bovee "shot" the faculty, Bob Millar was in charge of classes and Harry Keeler acted as an administrative assistant. Larry Carter filled in for Frank White upon the latter's departure from school. The photography experts were Roger Johns, Cas Szukalski, Jim Tangi, John Reid, Ed Lesky and Hank Worley.

A rare situation. The El Rodeo photographers find themselves on the wrong side of the lens. LEFT TO RIGHT: J. Reid, E. Lesky, H. Worley, J. Tanji, C. Szukalski (Chief).

— minor pubs —

The News Bureau staff worked hard to publicize Poly.

Russ Pyle admires work of famous Poly cartoonist, Dick Tice. These two men coordinated their efforts to produce the Frosh Handbook.

Ten thousand copies of the attractive Poly Royal Brochure were sent to every state and to many foreign countries.

Have you ever picked up a copy of the Podunk Falls Weekly News and found mention of a Cal Poly event or activity? How did it get there? The News Bureau keeps Cal Poly in the public eye by disseminating publicity releases to newspapers all over California and throughout the United States.

No self respecting rooter would be seen on game night without a copy of the Goal Post clutched tightly in his hand. This authoritative poop sheet, not only kept the fan informed on who made that T.D., but supplied interesting background material about the participating teams.

The Poly Royal Brochure served as guide to the thousands of guests Cal Poly receives each year at the annual "Country Fair on a College Campus." Orchids to George Golding for a terrific job publicizing the years' most important activity.

Dedicated to the confused, bewildered and perplexed, The Frosh Handbook told the lowly freshmen where to go, how to get there.

collegians

Music for millions describes the Collegians activities. The smooth crew not only furnished music through the year for Joe Mustang and his dance date but also managed to tour the upper San Joaquin Valley in a series of one night stands. Then it was back to San Luis Obispo for the annual Home Concert, an event that the student and townspeople look forward to with eager anticipation.

glee club

The glee clubs tour of the San Joaquin Valley brough new honors to this group, already famous throughout California. At the Home Concert their musical offerings were met with enthusiastic response. Each year the glee club records a few of their most popular numbers and are assured of a quick sell out of the albums.

Don't let annoying green scum scare that lovely coed away. Use this new super bristle multi-purpose tooth brush, not only does it give your teeth that new pearly white appearance but is also handy in scrubbing floors, walls and sink drains. Cal Poly student demonstrates proper dental hygiene.

Sometimes the study grind proves too much of a burden to bear and results in the situation pictured here. Students strive to revive their sticken fellow scholar.

It's great to get up in the morning but it's greater to stay in bed. Poly denizen drops what he is doing and grabs his socks before hitting the deck.

Where the Poly man hangs his hat is often a long ways from the home corral. Men living in the dorms hail from every state in the Union and from foreign countries all over the world.

The dorms serve not just as a place to sack out, however, for the occupants form a social group participating in group recreation whenever possible.

Miss Gloria Demers, Cal Poly's queen of the 1951 Poly Royal, ruled vivaciously in her whirlwind two day reign over her 2400 male subjects.

Gloria was first introduced to the student body in October, at which time she was taken on a tour of the campus.

The duties of a queen were not new to Gloria, for she had served as a Homecoming Queen at her own college, San Diego State.

This group sponsors the Film Society, aids at registration, sells A.S.B. cards, carries on worthy drives, acts as special events agents, and in general is active and useful. This year the chapter participated in the national convention at Des Moines, and also sponsored the Far West Regional Convention here in San Luis Obispo.

Both the Architecture Club and Department devoted the year to advancing relationships between themselves and the practicing profession. A student chapter of the American Institute of Architecture was formed on campus. Field trips were taken to Los Angeles and San Francisco. Several speakers of prominence in the architectural profession addressed club meetings. Social activities included barbecues, beach parties, and were climaxed by the Beaux Arts Ball.

One of the many aims of the Society of Agricultural Engineers is to acquaint members with other students in the department and with figures from the many allied industries in the field. Toward this end the Society this year made a field trip to the Bay area where they toured the Caterpillar Tractor Company plant and the Ames Sprinkler Irrigation Company. A major social event emphasizing this aim was the annual reunion banquet held in conjunction with Poly Royal.

Though handicapped by an unusually small membership, the Penguins are considered one of the most active campus clubs. They escorted the Homecoming Parade and sponsored the Penguin Prance. During Poly Royal they maintained an exhibit, a carnival booth, and performed in a riding stunt show. Race meets, cross country runs, or leisurely Sunday rides followed by a barbecue are scheduled nearly every week.

Although one of the smaller clubs on campus, the Inspectors proved to be a close-knit, active organization. The members were mostly seniors who had transferred from San Dimas campus. However, they quickly fitted in with their northern brothers and became an important addition to campus life. This year's activities included a pot luck supper attended by the men and their wives or girl friends, sponsoring of the Inspector Hop and a stag party given by William Troutner, advisor for the group.

Cal Poly's Christian Fellowship Club was organized for the purpose of providing a center for encouragement of spiritual growth in Christ as it is seen in the Bible, and for the developing of fellowship with other Christians. This purpose is accomplished through weekly Bible studies, prayer meetings and get-togethers with similar groups from other colleges.

"Better school spirit," the aim of Kappa Rho, was evident upon examination of their operating calendar. The three projects launched by this service organization were: to obtain a banner for the rooting section, to donate to the school a large trophy case for all of Cal Poly's trophies and to obtain and maintain a bulletin board for all events and meetings held on campus. Kappa Rho also found time to conduct the Crusade For Freedom drive and helped with the sale of student body cards.

Highlight of the year was invited attendance at the Pacific Coast Mechanical Printing Conference in Los Angeles. Printers from nine western states gathered for discussion of printing problems. Capturing the 1949-50 intramural basketball championship, the team again defended its title this year, led by Captain Cliff Lee. During Poly Royal, students conducted over 1200 guests through the department on a tour demonstrating printing production methods.

The Chase hall Social Club, in its second year as an organization, has promoted a full schedule of events for club members. Social engagements have been held with various sororities in Santa Barbara and Fresno. Various stag parties and dances were held through the year. Open house was maintained during Homecoming and again during the Christmas formal. To round out activities, members take an important part in the intramural sports program.

This year's activities began with a welcome party for new students from Hawaii on September 23, under the co-chairmanship of Fred Dang and Jitsuo Teruya.

The club's musical group under the direction of Arthur Watson won the Talent Contest Plaque for the second consecutive year. The club was also represented in many intramural sports. Two other important club activities were the "Hawaiian Night" dance and a Hawaiian feast.

soils

In January 1950, the Cal Poly Soils Club was formed to promote extra-curricular activities in the field of soil science. This organization annually sponsors field trips to other areas of the state to study soil and crop conditions. Social activities are mostly confined to obtaining prominent speakers and films on soil science. The club's main events of the year included sponsoring of a school dance, "The Pilgrim Hop," and presentation of an expanded Poly Royal exhibit.

Los Lecheros provided three judging teams which successfully competed against colleges over the nation. The senior dairy cattle judging team placed fifth at the national intercollegiate contest at Waterloo, Iowa. They were hosts to the Annual California Jersey Cattle Club meeting, entered a float in the Homecoming parade, sponsored the annual Butter Ball and conducted the campus Cerebral Palsy drive. T. R. Knudsen and Frank Hopkins, two outstanding California dairymen were chosen as honorary members at the club's annual banquet. The G. M. rodeo club

Organized for only two years, Rodeo Club members have become widely known in intercollegiate rodeo competition. Footing their own expenses in representing Cal Poly at many events, they climaxed their season by taking first place at the famous Cow Palace meet in March. Their program made more history by presenting the first Poly intercollegiate rodeo in May.

The 200 members of the Boots and Spurs Club are Animal Husbandry majors who aspire to further the extra-curricular activities of the department and to promote better understanding among the students and persons interested in the livestock production field. This year the club has become a member of the Block and Bridle which is a national organization. Every year they sponsor the Poly Royal barbecue, stock show and the rodeo. In the spring they also have the All College Judging Contest, which is open to every student at the college.

The student branch of the Institute of the Aeronautical Sciences is a recognized chapter of IAS. The basic mission of the Institute of the Aeronautical Sciences is to facilitate, by all available means, the interchange of technical ideas among aeronautical engineers in this country and abroad. Its meetings, local and national, provide an open forum for the testing and evaluation of new ideas.

electronics

The activity of the three clubs in the Electronics and Radio Engineering Department is integrated so that three basic characteristics are emphasized, that of professional, hobby, and social. The Institute of Radio Engineers, Inc., stresses not only the dissemination of knowledge of the theory and practice of electronics and other related fields of engineering and science, but develops professional attitudes through guest speakers from the field, planned tours to electronic corporations, and by taking an active part in the regional conventions of the national I.R.E.

Informational use of leisure time captures the interest of the Amateur radio club (W6BHZ). This organization maintains a two-fold function of furthering widespread relations between amateurs and handling radio messages.

The Electronics Club relaxes somewhat in the atmosphere of social activity and represents the department officially for the college.

The Physical Education Club is organized to stimulate wide and intelligent interest in health, physical education, and recreation. Through programs it helps to disseminate information to students about important trends and developments in the field. It aims to advance standards of teaching and leadership and to cooperate with local, state, and national health and recreation associations. One of the club's prime purposes is to promote social and professional cooperation between physical education majors and the faculty.

Nineteen-fifty wasn't a winning season on the local greensward. Won and loss columns indicated it wasn't even impressive. But those who followed the Saturday night engagements of the Poly gridmen circle the year 1950 with red pencil. In the freshmen year of the Hughes three-year plan, the silvered-haired gentleman from up Menlo way began a slow morale building program. Not deep in material, but deep in determination—a determination that led players to believe—"we may be beat, but we will be beaten as a team."

pepperdine

Rolling out from under fall wraps, Coach Leroy Hughes' 1950 Cal Poly Mustangs found Pepperdine College waiting at the top of the list. Roy Richards, celebrating his first year in CCAA competition, came up with an eight man line along with quarterback Phil Daher and end, Jack Bighead. The combined talents of quarterback Al Gomes and halfback Bob Newman failed to hold a second period 5-0 Poly lead. Pepperdine stormed back in the second and third quarters for a 20-12 win.

Occidental's Patterson field furnished the site for an unlucky Friday the 13th battle between the Mustangs and Osy's Tigers which ended in the locals third defeat of the season, 24-14. Brilliant running by Doss Sims and defensive work of Leon Jackson was not enough to offset two costly disputed decisions.

Final CCAA grid champions, San Diego State, were ready to settle for a scoreless tie when they met Coach Roy Hughes' Mustangs in the knee deep mire of Poly stadium. A thrill packed turkey day game greeted the thin crowd that witnessed Cal Poly's first meeting with a team from east of the Mississippi. Saving the best for the last, Coach Hughes' team tied the Thanksgiving Day score on three different occasions only to lose in the final period 36-21. 1950 CAL POLY YEARLINGS

The most talent laden turnout in Cal Poly history greeted Coaches George Prouse and Chuck Lang when freshman practice got under way during mid-September. Numerous were the names of all-city, all-state, and all-conference selections. Numerous also were 10 sec., 100 yard speedsters. Fielding a starting line proved difficult, but picking a starting backfield proved an even greater task for the frosh mentors.

Frosh coach George Prouse, right, and assistant Chuck Lang, left, discuss a new play to be used during a weekend encounter.

Leading the Colt backfield from the quarterback slot was gutty Ron Davey from Hawthorne's Leuzinger high. In the fullback position was Davey's high school teammate, Johnny Lewis, 200 pound speedster who made all-CIF selections while at Leuzinger. Furnishing speed at the halfback positions were Jim Sampson, former San Francisco Poly high grid artist, and Alex Bravo, Santa Barbara high school all-CIF selection in 1948. Standout in the line was Stan Sheriff, two year all-city center while playing at San Francisco's Washington high.

coach

Likable Ed Jorgensen, who would rather part company with his right arm than lose a basketball game, celebrated his fourth year of coaching at the Mustang institution this season, with the best cage record in the history of the San Luis Obispo campus. Should things go right with the selective service, the popular mentor may see his dreams for a conference championship materialize next season.

Twenty-two games won, eight lost, first place at the Fourth Annual Redlands Invitational, runner-up honors at the First Annual Los Angeles State Invitational, four men on All-CCAA selections and numerous shattered school records well sums up Cal Poly basketball activity during the winter campaign of 1950-51. It was the year a lanky lad from Simi named Strathearn, a transfer from Long Beach CC named Nichols, a Compton CC product named Ziemer, a diminutive forward from Delphi, Indiana named Wood, and a ball hawking guard from San Jose named Frederick met for the first time on the Poly courts and helped produce Cal Poly's greatest basketball team in history.

Doug Strathearn, lanky pivotman from Simi, Calif., sets himself for his uncanny hook shot against the Santa Barbara Gauchos. Joe Aguiar (9) and Frank Kerker screen for the Mustangs, while Gaucho Tom Moss watches.

It was a year that saw the fast-breaking Mustangs romp over pre-conference season competition without hardly working up a sweat. Whittier, Redlands, Pomona, Long Beach State and Santa Barbara fell in order as the Mustangs lost but one of their first 11 games, a 56-67 decision to the semi-pro Santa Maria Dukes.

Highlights of early season play was the Fourth Annual Redlands Invitational tournament. The Mustangs won three straight over Pomona, Redlands and Whittier to carry away the first place trophy. In the opening round of play, Doug Strathearn broke a school and tournament scoring record by bucketing 31 points against the Pomona Sagehens. Ed Nichols won top honors by being named the tourney's most valuable player. Both Strathearn and Nichols were chosen on the All-tournament quintet.

A slight dispute arises following the Fresno tilt when fans, players and officials mixed in the biggest rhubarb of the year. Fresno's Roosevelt gym was the setting for the Mustangs upset at the hands of the lightly regarded Bulldogs. Mustang forward Paul Simpson is center of attraction.

Moving into CCAA circles the Mustangs' performances resembled those of the "little girl who had a little curl right in the middle of her forehead." They managed to better Santa Barbara and San Diego State on two occasions, winning single games from Los Angeles State and Fresno. Pepperdine again proved to be the stumbling block with two convincing victories in two outings over the local five.

When Hank Moroski departed for graduate work at Stanford last June, there were many that firmly believed that Cal Poly had seen the last of All-CCAA performers, but conference coaches disagreed this season. Practically unanimous choices to the honored list were Doug Strathearn, playing his senior year of competition and Ed Nichols, outstanding junior from Long Beach City College. In the process, they established a new season school scoring mark of 333 points. They both tied at the mark in the final game of the season. Also named to the honored selection were Dave Ziemer, second string, and Billy Wood, honorable mention.

frosh basketball

Though very often hidden in the limelight of their big brothers, the Frosh nevertheless showed signs of brilliance in completing a successful season.

Games with the local merchant's teams rounded out the Frosh schedule for 1950-51.

You don't have to be tall, but it helps! Bell, the Frosh's high-altitude center, moves in to use his seven foot height to an advantage during the Poly-Fresno engagement.

STANDING, left to right: H. Tillotson, L. Jackson, B. Lidderdale, J. Phillips, S. DeSilva, B. Pinkard, Coach G. Prouse. SITTING: B. Spink, P. Harris, J. Elder, A. Guglielmelli, P. Fischbeck, J. Elam.

Fans and punches go wild as Cal Poly's Mustangs make a home appearance against the San Francisco Gators. Bill Lidderdale is shown decisioning Warren Albe of the Bay City school.

boxing

Hampered by inexperienced material and plagued with injuries, Coach George Prouse's boxing squad of 1950-51 nevertheless established one of the greatest seasons ever recorded in the Cal Poly fistic annals.

Paul Fischbeck, 145 pound welterweight contender from Inglewood led the way, losing but three of nine fights. Included in his list of losses were two that especially hurt the diminutive battler. One to Bob Dossey (UCLA) on a split decision in the finals of the annual Inter Mountain tournament at Pocatello, Idaho. The final defeat came in the last round of the Sacramento PCI tourney to Norm Walker, Idaho.

Returning lettermen on the squad were Fischbeck, Bill Lidderdale, John Elder, Leon Jackson, Bob Spink, and Art Guglielmelli. Newcomers Jim Elam, Preston Harris, Pinkard Bedford and Stan DeSylvia were also a big help to the Mustang's winning ways.

Bill Lidderdale looks for an opening against Eli Thomas defending PCI 165 pound champion in the first round of the annual collegiate boxing tournament. Lidderdale lost on a close decision.

Paul Fischbeck hooks a right into the face of California's Bill Sapsis. Poly's battling 145 pounder took a unanimous decision in the first round of the PCI. Fischbeck was finally eliminated from welterweight competition by Norm Walker of Idaho State.

wrestling

Jim Dowe, Cal Poly studentbody president who doubled as PCI 167 pound champion this season. Dowe won the Pacific Coast Intercollegiate trophy by a unanimous decision over Bill Mosby, Oregon State's defending titleholder. What made Dowe's feat even more remarkable is the fact the he did not join the squad until midway through the season.

Paul Johnson, wrestler, piano player, hurdler, pins opponent during first round of Inter-school tournament below. Johnson went all the way to win the 165 novice crown.

Referee Weber Lawson moves into action as a Mustang grappler gives his all in a heated session against San Francisco State. Poly's Joe Binggeli holds the upper hand at present.

FIRST ROW: V. Oylar, R. Bernardi, H. Root. SECOND ROW: B. Richelt, B. Canning, R. Ruegg, Coach Don Watts.

The local linksmen, under the direction of coach Don Watts, completed a very successful season, dropping only two of their nine matches, one to San Jose and one to Stanford.

The Morro Bay golf course provided the playing greens for all home contests.

golf

Ray Ruegg "irons" out of the fairway onto the green. One to make it is par.

John Gay, Doss Sims, and Paul Johnson go over the highs as the three outstanding hurdlers prepped for a coming weekend meet. Johnson's brilliant career was cut short this season when he suffered severe injuries in an auto accident following the Fresno meet.

track

COACH JIM JENSEN

"Losing the men hurt. Losing the meet followed automatically."

Coach Jim Jensen assumed the role of the man who had to watch his pockets being picked without being able to call for help this season. A coach who could readily boast one of the strongest track teams on the coast on paper last fall was ready to settle for anything short of last place in CCAA ranks by May. The selective service had left him no choice. To make matters worse an unfortunate accident cost him his best hurdler in Paul Johnson, a leading 440 man in Jim Houston, and an outstanding dash contender in Preston Harris.

Les Samman, caught in his specialty the 220 lows.

Kelly Hylton one of the leading Poly javelin men in history and a strong contender for the CCAA weight crown.

As track season moved toward the CCAA championships in San Diego, Kelly Hylton, Doss Sims, Dub Carter, Max Garver, Cliff Par-egien looked to be the only Poly hopes in the scoring columns. All have shown flashes of brilliance during the season but none have been too consistent.

Bespectacled Jim Houston, had to stage a comeback following the costly Fresno accident. He promises to be one of the best 440 men on the local oval next season.

Dub Carter was eyeing the conference 440 championship as time for the San Diego State hosted finals drew near. He also ran the relay and 220 events.

Up and over, Doss Sims clears the six foot mark consistently. One of the greatest all around athletics on the Poly campus, Sims won his letters in both basketball and football besides track.

baseball

Filling in with hustle what they lacked in experience, Coach Bob Mott's 1951 Mustang nine shows promise of running up one of the greatest seasons on record. With six games, all CCAA contests remaining on the slate, the locals had won 19 while losing 5. Third place was their current resting place on the conference ladder.

Coach Bob Mott surveyed the Cal Aggie infield before the Mustangs took to the field and won their fifth straight Poly Royal game.

San Diego State's Art Preston smashes a drive back towards pitcher Frank Romero as the Aztecs and Mustangs split in a CCAA doubleheader.

The Mustangs take to the road for a seven day swing through Southern California. In their first collegiate outing of the season, Coach Bob Mott's nine won all seven of their road games.

Coach Bob Sevier, center, talks pitching troubles over with able student Wick Kathan.

Lefty Don Lund continued to anchor the infield for the second straight season. The smooth fielding first baseman is definitely the best glove operator ever seen on the local diamond. Cliff Cracknell at second, Joe Mueller in the short field, and Dick Morrow at third rounded out the big four.

Mustang firstbaseman, Don Lund, reaches for a tardy throw as the Pepperdine Waves stage a late inning rally to win a local Poly encounter, 4-3.

Coach Bob Mott's moundstaff unlimbers for the cameraman. Reading from left to right: G. Mitchell, F. Romero, J. Ellis, B. Bauhofer, D. Buhlert, J. Rubcic, and D. Thompson.

Bill Roberts who started the season at third, found himself behind the plate with the season but a few games old. Roberts who at one time caught for Santa Ana JC held up under the task. He was ably backed by Nash Fernandez and Ken Wilson.

"Watch those spikes," bellows Poly's Don Lund as he heads for the dugout following a slight mishap at firstbase.

Ray Carricaburu, sans baseball cap, fails to beat throw to first as Aztec firstbaseman goes high for ball. Mustangs dropped two out of three to the borderland nine.

In the outer pastures where old timers say the games are won and lost, Mott came up with a brilliant threesome. Dick Buhlert, convert pitcher, held down left field. Jim Sampson, one of the brightest stars to ever show on the Poly diamond, roamed center, and Ray Carricaburu, two year letterman, was at his old post in right.

Bill Roberts, catcher-infielder, did everything but entertain the baseball team on road trips. His rifle arm saved the Mustangs backstopping department.

A mound corps which looked weak at the beginning of the season, improved to the point of almost gaining a lustre as the season wore on. Big right-hander Frank Romero paced the way as he stopped them cold with his high hard one. Bud Bauhofer and John Rubcic were right behind, turning in excellent pitching performances when they were most needed.

The starting three were backed by reliefmen George Mitchell, Wick Kathan, Dick Thompson, and Jim Ellis. Jimmy Sampson and Dick Burlhert were capable of leaving their outfield posts and taking over on the mound when needed.
